Concentration Exercise Numbers 01- 04

In each grid, numbers from 01 to 25 are arranged in a random order. Cross the numbers 01 to 25 in sequence. First find 01 and cross the number (put a cross X). Then find 02 and put a cross. Then 03, 04, 05 to 25. The test can be done in both ascending order and descending order.

Concentration Exercises

Concentration Exercise Alphabets 1- 4

In each grid , alphabets are written at random. First find letter 'a' and cross the letter (put a cross X). Then find b and cross the letter. Then find c, then d. Like this go sequentially till the last alphabet. You can also do the exercise from y to a . First find y , then x, and go back sequentially till you reach a.
